◀ LIFT PRESS

Type: 3379

- Lift Press functions on the principle of a fork-lift truck. The container is lifted against the pressing unit by means of its bar manual control.
- Maximum volume reduction occurs while pressing packaging material such as plastic films, wrapping paper etc.
- Lift Press simple control and mobility makes its usage more effective. It is used in connection with plastic containers 660, 670, and 1,100 l.
- It is delivered with a dismantled pressing arm (simple assembly by one person).

It permits the packaging waste reduction to some 50%.

It reduces costs for waste collection significantly. You also obtain a fully functioning fork-lift truck with this press.
