

WASHING TABLES

Neither a barrel nor liquid form a part of tables

Washing tables

- Washing tables assure economical cleaning and washing of small elements and parts. Thanks to light structure and minimal dimensions are suitable for space limited working areas. Tables have high load capacity (up to 600 kg) and they are equipped with certified pump for pumping flammable liquids of 3rd class of danger. Change of colour is possible without charging extra fee. Average period of one dose usage is 12–36 months according to the intensity of degreasing, with a guarantee of taking back the contaminated dose and its free disposal upon delivery of a new one.

Degreasing liquids

- **Degreaser (type "A")** – suitable for common degreasing and washing of products polluted by various types of oil, cutting fluids and plastic lubricants. The liquid is without smell.
- **Degreaser (type "C")** – suitable for washing electric tools, electric parts and components designed for subsequent surface finish in paint jobs and galvanising units.
- **Degreaser (type "D")** – suitable for all types of degreasing included in types A and C. High cleaning effect, practically no aromates, inert to cleaned surfaces, excels in accelerated drying.

Short delivery times
4-year guarantee
