Type: 8239

Type: 8238

## Trapping tubs under the rack

- Polyethylene trapping tubs for placing directly on the ground under the pallet rack.
- It enables the capture of hazardous liquids stored in containers in the racks
- The tubs have high chemical resistance.
- Integrated depressions for handling equipment forks.

TYPE	NAME	DIMENSIONS w x d x h (mm)	CAPACITY (l)	WEIGHT (kg)	NUMBER OF PALLETES
8237	Trapping tub for a rack with dimensions 1,800 x 1,100 mm	1,780 x 1,320 x 280	405	18.2	2
8238	Trapping tub for a rack with dimensions 2,200 x 1,100 mm	2,180 x 1,320 x 280	520	22.5	2
8239	Trapping tub for a rack with dimensions 2,700 x 1,100 mm	2,680 x 1,320 x 420	1,100	34	3

## Suspension trapping tubs in the rack

- Polyethylene suspension trapping tubs for placement in the pallet rack floor.
- It enables the capture of hazardous liquids stored in containers on each floor of the pallet rack.
- The tubs have high chemical resistance.
- The tub is supported by the edges on the supporting parts of the pallet rack and is thus secured in place.
- Dimensionally suitable for EURO pallets (1,200 x 800 mm).
- Pallets can be placed directly on the trapping tub.
- Trapping tubs can be equipped with a steel grid or a plastic grid.

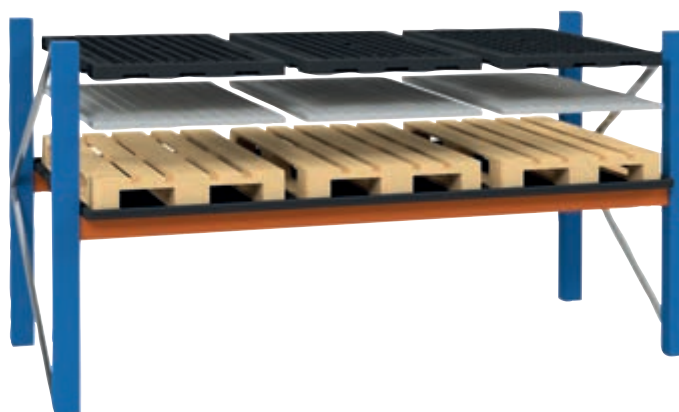

Type: 8240

Suspension PE trapping tub for pallet racks with dimensions 1,800 x 1,100 mm.

Type: 8241

Suspension PE trapping tub for pallet racks with dimensions 2,700 x 1,100 mm.

TYPE	NAME	DIMENSIONS w x d x h (mm)	INTERNAL DEPTH (mm)	CAPACITY (l)	SHELF BEARING CAPACITY (kg)	NUMBER OF PALLETES	WEIGHT (kg)
8240	Covered trapping tub for rack with dimensions 1,800 x 1,100 mm	1,780 x 1,300 x 230	950	230	2 x 600	2	20
8241	Covered trapping tub for rack with dimensions 2,700 x 1,100 mm	2,620 x 1,300 x 165	950	230	3 x 600	3	27.5
8201	Steel grid	1,200 x 800 x 30	-	-	600	1	12.4
8236	Plastic grid	1,200 x 800 x 60	-	-	600	1	8.5
