

## Containers for front dumping 2.5 / 5 m<sup>3</sup>

### Type: 1835 (US) / 1845 (DIN)

- 350 kg
- 1,950 x 2,420 x 1,650 mm
- 1,250 kg
- 5,000 l

### Type: 1832 (US) / 1842 (DIN)

- 220 kg
- 1,950 x 1,400 x 1,600 mm
- 625 kg
- 2,500 l

- ◀ - Designed for collection of municipal, sorted and trade waste.
- The simple design combines requirements for economical containers with preservation of high utility value and its long lifespan.
- Upon a customer's requirement we can deliver containers with different volumes. The containers can also be equipped with foots, lockable covers and arrestment of covers in open position.
- The containers are designed for maximum loading capacity 625/1250 kg; their robust structure with stiffeners allows their slight overloading up to approx. 15%.

Cover arrestment & lock

Partly openable rear cover (easier dumping)

Pocket fixed by screws

Replaceable wheels

Hoisting pins

## Trolleys with front discharging 2.5–6.5 m<sup>3</sup>

### Type: 1195

- 340 kg
- 2,040 x 2,080 x 1,820 mm
- 1,250 kg
- 4,500 l / 5,000 l

### Type: 1190

- 260 kg
- 2,040 x 1,370 x 1,570 mm
- 625 kg
- 2,500 l

- ◀ - Designed particularly for collection of household, sorted and industrial waste.
- Useful in shopping centres, industrial zones, petrol stations, recreation areas, sports areas, etc.
