

DOCUMENT ORGANIZERS

Document files ▶

Type: 4187, 4188, 4189

- Turning post for files is designed for the economic storage of A4 document files. Post diameter: 80 cm.
- Designed to store up to 144 document files on an area of roughly 1/2 m².
- The post is set up in unit system and its levels are easily put into position.
- Massive five-arm metal stand provides for a good stability.
- Easy turning provided by central bearings.
- The shelves and bars are made from high-quality laminate with a plastic edge.
