

PALLET TRUCKS

SPECIAL PALLET TRUCKS

- Intended for manipulation with pallets of dimension 1,200 x 800 mm or 800 x 600 mm with a lifting height (bore diameter) of 100 mm.
- Solid frame leans on rotary truck on one side and small travel wheels on the other side.
- Moving up and down the shaft starts hydraulics up, control valve has three positions: 1 – lifting, 2 – zero position, 3 – lowering.

Pallet truck with polyurethane wheels

Steering wheels Ø 200 mm

- Cast-iron wheels disc with polyurethane tyre.
- Thermal resistance from -20 °C to +75 °C.

Fork wheels Ø 80 mm

- Tandem fork wheels for noiseless and problem-free drive on uneven surface.

Type: 5253-P

Pallet truck with rubber wheels

Steering wheels Ø 200 mm

- Cast-iron wheel disc with rubber tyre.
- Thermal resistance from -10 °C to +60 °C.

Fork wheels Ø 80 mm

- Tandem fork wheels for noiseless and problem-free drive on uneven surface.

Type: 5253-G

TYPE	NAME	STEERING WHEELS	FORK WIDTH/LENGTH (mm)	TRUCK LIFTING (mm)	WEIGHT (kg)	LOAD CAPACITY (kg)
5253-P	Hand low truck	polyurethane	160/1,150	85-200	67	2,500
5253-G	Hand low truck	rubber	160/1,150	85-200	67	2,500

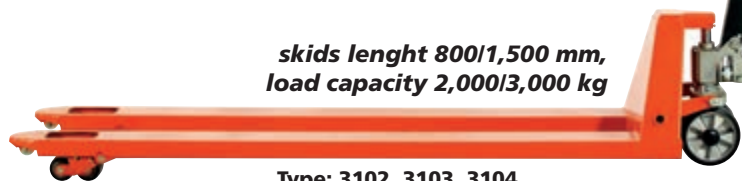

Low-profile pallet truck ▼

Type: 4672

- The truck designed mainly for handling with pallets with minimum headroom.
- Minimum height of fork is 51 mm, maximum 161 mm.
- The truck is delivered with polyurethane wheels as a standard.

skids lenght 800/1,500 mm,
load capacity 2,000/3,000 kg

Type: 3102, 3103, 3104

Four-way pallet truck ▼

Type: 3105

- Low-lift pallet truck for handling EURO pallets with possibility of movement in two mutually perpendicular directions.
- Truck is equipped with hydraulic aggregate for load handling.

Pallet trucks with atypical skids length ▲

Type: 3102 – skids length 800 mm,

Type: 3103 – skids length 1500 mm

- Long skids for handling oversized pallets.
- Short skids for handling pallets in narrow spaces.
- Delivered with polyurethane wheels as standard.

▲ Pallet truck of 3 tons load capacity

Type: 3104

- The only difference when comparing to standard trucks it its high load capacity up to 3 tons.
- Its manipulation and wheels are the same as with the above types.

TYPE	NAME	WIDTH/LENGHT OF FINGERS (mm)	WITH/LIFT OF TROLEY (mm)	WEIGHT (kg)	LOAD CAPACITY (kg)
3102	Pallet trucks with atypical skids length 800 mm	160/800	540/85/200	73	2,000
3103	Pallet trucks with atypical skids length 1,500 mm	160/1,500	540/85/200	79	2,000
3104	Pallet truck of 3 tons load capacity	160/1,150	540/85/200	89	3,000
3105	Four-way pallet truck	160/1,150	540/85/200	92	1,500
4672	Low-profile pallet truck	160/1,150	540/85/200	86	1,500
