Klinix box plastic ▶

- Serves as single use bin for dangerous and hygienic collection of anatomic wastes.
- Inserting a sack enables multi-shoot use.
- Suitable for medical practices, usable also for collecting any other types of waste.
- Certified – 1H2/Y31/S/...
- Stackable, suitable for incineration, manufactured of polyethylene.
- Construction of lid enables double available closure:
 - slight pressure to the lid with following reopening during successive filling of a bin.
 - gross pressure to the lid closes the bin without possible reopening even without any other contact with the content of the bin.

Lid inside structure with glue serves for hermetic sealing.
